

Programa 19 de enero 2022

January 2022

8:30 – 9:00 horas	Inscripciones.
9:00 – 9:15 horas	Inauguración palabras autoridad. Dr. Rodrigo Moore, Director Programa de Doctorado en Ciencias Biomédicas.
9:15 – 9:30 horas	Dr. Andrew Quest, Director Center for studies on Exercise, Metabolism and Cancer (CEMC), Scientific director Advanced Center for Chronic Diseases (ACCDiS)
9:30 – 10:00 horas	Coffee.
	Simposio Microbiota Oral
10:00 – 10:45 horas	Patricia Díaz, PhD. (University of Buffalo, USA): "Local and systemic impact of the oral microbiome" Video conference
10:45 – 11:15 horas	Loreto Abusleme, PhD (Faculty of Dentistry, Universidad de Chile): "Oral microbiome changes associated with periodontal diseases: what have we learned so far?"
11:15 – 11:45 horas	Nicolás Dutzan, PhD (Faculty of Dentistry, Universidad de Chile): "Microbial induced immune modulation during periodontitis"
11:45 – 12:15 horas	Denisse Bravo, PhD (Faculty of Dentistry, Universidad de Chile): Periodontitis associated bacteria and the modulation of responses in host cells.
12:30 – 14:30 horas	Lunch
14:30 – 15:15 horas	Alex Mira, PhD (FISABIO, Valencia, España). "Oral microbiome studies: clinical implications"
15:15 – 15:45 horas	Carla Lozano, PhD (Laboratorio de Bioquímica y Biología Oral, Instituto de Investigación en Ciencias Odontológicas, Facultad de Odontología, Universidad de Chile). "Deciphering the role of fungi as commensals or pathobionts in the oral cavity"
15:45 – 16:15 horas	Rodrigo Giacaman, PhD (Unidad de Cariología, Facultad de Ciencias de la Salud, Universidad de Talca). "Caries; infection or dysbiosis? The delicate balance of the dental biofilm".
16:20 – 17:05 horas	Presentaciones breves de los estudiantes DCBM/MCBM

Programa 20 de enero 2022

January 2022

9:00 – 9:30 horas	Andrew Quest, PhD (Faculty of Medicine, Universidad de Chile): “Cross-talk between oral and stomach microbes”
9:30 – 10:00 horas	Erick Riquelme, PhD (Facultad de Medicina, Universidad Mayor): Cáncer, Sistema Inmune y Microbiome; Cross talk between Gut and Tumor Microbiome
10:00 - 10:30 horas	Coffee
10:30 – 11:00 horas	Gonzalo Jorquera, PhD (Centro de Neurobiología y Fisiopatología Integrativa (CENFI), Facultad de Ciencias, Universidad de Valparaíso): Gut microbiota-skeletal muscle axis: Potential role in the pathophysiology of sarcopenia.
11:00 – 11:30 horas	Natalia Díaz, PhD (Biochemistry and Physiology Department, School of Pharmacy & Food Science, University of Barcelona): Modulation of intestinal immune responses by microbiota-derived extracellular vesicles.
12:00 – 12:30 horas	Closing comments and discussion.

19 Y 20 DE ENERO 2022

FACULTAD DE MEDICINA, CAMPUS PEHUENCHE
